

PUBLIC HEALTH GRAND ROUNDS

Public Health and Health Care Collaboration: Continued Progress Towards Whole Health

Public health practice has evolved from a focus on individual choices to systems and policy changes that make healthy choices more feasible. Public health entities have worked with health care systems to tackle significant problems in the past. However, increased meaningful collaboration is needed to address social drivers and inequities that contribute to illness and limit thriving.

Friday, September 20
12:00pm – 1:00pm
