CTI Trainings	5-6
On Demand	7-23
OHEP Calendar	24

Welcome to the **June 2017** issue of the Aware Prepare Update. This monthly electronic newsletter is your guide to upcoming trainings related to preparedness. These trainings may be provided in one or more of the following formats, including: live webcasts, webinars and in person training; archived webcasts, webinars and on demand eLearning.

To be included in the mailing list for the Aware Prepare Update, email edlearn@health.ny.gov

CTI-100

Introduction to the Health Commerce System Portal

June 7, 2017 10-11am**July 6, 2017 11am-12pm****August 11, 2017 9-10am****Provider:** NYSDOH Commerce Training Institute**Average Completion Time:** 1 hr**Continuing Education credits:** No**Enroll in LMS Course:** [CTI-100](#)

The redesigned Health Commerce System (HCS) became available in March, 2010. The HIN and HPN were recreated as the Health Commerce System portal, or HCS. There is no longer a separation between the HPN and HIN.

Objectives:

- Identify the major elements of the HCS architecture
- Identify the features of the HCS
- Demonstrate strategies to customize the portal for your own use.

CTI-101

Introduction to MERITS

June 5, 2017 10:30-11:30am
August 2, 2017 1-2pm
Provider: NYSDOH Commerce Training Institute
Webinar: Yes
Average Completion Time: 1 hr
Continuing Education credits: No
Enroll in LMS Course: [CTI-101](#)

THIS COURSE IS FOR COUNTY HEALTH DEPARTMENTS ONLY.
 The purpose of this training is to provide a system overview and allow future users to gain a better understanding of the benefits that the MERITS application can offer. Individuals that successfully complete this course will be able to get access to this application through the Health Commerce System.

CTI-120

Integrated Data Reporting in HERDS v.3

June 13, 2017 11am-12pm
July 12, 2017 1-2pm
August 10, 2017 2-3pm
Provider: NYSDOH Commerce Training Institute
Webinar: Yes
Average Completion Time: 1 hr
Continuing Education credits: No
Enroll in LMS Course: [CTI-120](#)

This course provides a solid foundation for adult care facilities, home health agencies, hospices, hospitals, LHCSAs, nursing homes and extension clinics to report data using the HERDS v.3 application.
 The course will begin with a look at how to obtain access to HERDS and how facilities will be notified when there are activities to be completed. Learners will then be provided demonstration of the new reporting platform. The session concludes with a brief overview of the pre-selected reports available from the application. This course is presented in a one hour session via WebEx Training Center.
Objectives:

- Locate and modify the person record.
- Explain the importance of the person record in relation to HERDS.
- Demonstrate the ability to review assigned roles.
- Locate and access HERDS.
- Describe the overall structure of HERDS activities.

CTI-200

Communications Directory Certification

June 12, 2017 10:30am-12pm
July 11, 2017 1-2:30pm
August 17, 2017 11am-12:30pm
Provider: NYSDOH Commerce Training Institute
Webinar: Yes
Average Completion Time: 1.5 hrs
Continuing Education credits: No
Enroll in LMS Course: [CTI-200](#)

This course provides a comprehensive review of the Health Commerce System Communications Directory, the underlying records that make up the directory, and the tools all HCS users can use to access the directory. This two hour course will begin by examining the structure of the directory and differentiating between the actual contact information records stored for each person in the directory, and the facilities and roles those records can be associated with. Once the structure of the directory has been examined learners will review and have an opportunity to practice with the applications used to access the information stored in the directory. At the conclusion of this course learners will be able to:

- List the components of the Communications Directory
- Summarize how the components are related and work together
- Summarize the HCS emergency call down procedure, describing the role the Communications Directory plays

CTI-201

Preparing MERITS for Your Organization's Use

July 20, 2017 9-10:30am
Provider: NYSDOH Commerce Training Institute
Webinar: Yes
Average Completion Time: 1.5 hrs
Continuing Education credits: No
Enroll in LMS Course: [CTI-201](#)

This course offers slight review of the content from CTI-101 that is why CTI-101 is a recommended prerequisite. CTI-201 Preparing MERITS for Your Organization's Use provides you with a more in depth understanding of the difference between Item Inventory and Master Inventory, how to enter a purchase order and receive order, manage the sites that you send inventory to, how to track inventory stored or shipped to another site. The course will review elements of CTI-101, such as how to issue an order, pick and ship it, as well as viewing MERITS reports.

CTI-300

Integrated Health Alerting and Notification System (IHANS) Training & Certification

June 15, 2017 9am-12pm
July 14, 2017 9-am12pm
August 21, 2017 1-4pm
Provider: NYSDOH Commerce Training Institute
Webinar: Yes
Average Completion Time: 3 hrs
Continuing Education credits: No
Enroll in LMS Course: [CTI-300](#)

This course covers all information necessary to begin the certification process for using the Integrated Health Alerting & Notification System.

Participants will receive hands on practice with the tools and be offered an opportunity to complete certification.

Users who wish to complete certification are strongly encourage to send an advance message to any audience they may broadcast to as part of the certification process. Typically course participants broadcast a sample notification to their HIN Coordinators (LHDs) or Directory Coordinators (NYSDOH).

CTI-502

New York State Evacuation of Facilities in Disasters Systems (eFINDS) version 3.0

June 19, 2017 11am-12pm
July 18, 2017 1-2pm
August 23, 2017 2-3pm
Provider: NYSDOH Commerce Training Institute
Webinar: Yes
Average Completion Time: 1 hr
Continuing Education credits: No
Enroll in LMS Course: [CTI-502](#)

The New York State Evacuation of Facilities in Disasters Systems (eFINDS) is the patient/resident tracking application housed on the Health Commerce System (HCS).

This course provides a solid foundation for registering and updating patient/resident location information during an incident or event, such as a storm, flood, non-natural incident or practice exercise/drill.

Course participants will be provided a demonstration of the eFINDS application including: eFINDS Data Reporter and eFINDS Data Administrator role permissions; how to register a patient/resident with a scanner and without; use a spreadsheet to register multiple patient/residents; update patient/resident tracking information as an evacuating facility, and as a receiving facility. The session concludes with hands-on exercises.

ALBANY MEDICAL CENTER REGIONAL TRAINING CENTER (AMC-RTC)
STONY BROOK UNIVERSITY HOSPITAL REGIONAL TRAINING CENTER (MARO-RTC)**

**Incident Command System RECORDED Webinar Series
ICS700 – ICS100 – ICS200 - HICS**

INTRODUCTION:

All hospitals and healthcare systems receiving Federal preparedness and response grants, contracts or cooperative agreements (HPP Grant) must maintain compliance in training staff in the National Incident Management System (NIMS). NIMS courses include IS-100, IS-200 and IS-700 or their equivalents. This webinar series is designed to provide an overview of each course and to prepare staff for the FEMA exam/certification.

SESSION OVERVIEW:

- **ICS 700** recorded webinar session provides an introduction and overview of the National Incident Management System (NIMS). NIMS provides a consistent nationwide template to enable all government, private sector, and nongovernmental organizations to work together during domestic incidents.
- **ICS 100** recorded webinar session introduces the Incident Command System (ICS) and provides the foundation for higher level ICS training. This session describes the history, features and principles, and organizational structure of the Incident Command System. It also explains the relationship between ICS and the National Incident Management System (NIMS)
- **ICS 200** recorded webinar session will cover Incident Command System (ICS) principals which will enable personnel to operate efficiently during an incident or event. This session will provide training on and resources for personnel who are likely to assume a supervisory position within the ICS.
- **HICS** recorded review session will provide an overview of the Hospital Incident Command System (HICS) and the operation of the Hospital Command Center (HCC) during emergency and non-emergency situations.

TARGET AUDIENCE:

FEMA IS Sessions: Staff person(s) who are either preparing to take the FEMA IS exam(s) or need a refresher in ICS basics.

HICS: Staff person(s) who need an introduction or refresher on Hospital Incident Command System principles.

REGISTRATION:

Mental Health Consequences of Infectious Disease Outbreaks - HPP Deliverable # 5

Recorded Session

Overview

Once again, OMH and NYSDOH co-sponsored a training that was simultaneously web streamed throughout New York State. This year's training, developed with the Institute for Disaster Mental Health (IDMH) at SUNY New Paltz, explored the mental health consequences of infectious disease outbreaks and why understanding and addressing the anxiety tied to infectious disease is essential to improving compliance with public health measures like quarantine recommendations and PODs, maintaining workforce resilience among healthcare workers, and reducing traumatic reactions for all involved.

The training identified the diverse groups who are likely to be impacted during and after an infectious disease outbreak and provided guidance on how to address these complex needs.

Target Audience

Mental health professionals who may be called upon to respond to disasters in a community or in a healthcare setting.

Registration

To enroll in the training, please go to <https://www.nylearnsph.com> and either register or login to the LMS.

Search Course Catalog for: **OHEP-DMHRec-2017**.

OR click this shortcut to the course enrollment page on the [LMS](#) .

Medical Countermeasures ClinOps On Demand Webinars from PHEEP

[ClinOps-201705](#) **Emergency Declarations and Mutual Aid: Accessing Staff Resources During a Local Emergency**

This presentation will include a brief introduction to the Intrastate Mutual Aid Program (IMAP), which is a program established by section 29-h of the NYS Executive Law as well as the procedure to request statewide volunteer resources (unpaid) through ServNY, including the required state level approval process. The Seneca County Health Department will present the history and development of the Finger Lakes Mutual Aid Agreement to facilitate the sharing of public health personnel resources between jurisdictions. The County will also highlight how this agreement was used to support vaccination points of dispensing (POD) during a large scale communicable disease outbreak.

[ClinOps-201703](#) **Point of Dispensing Quality Review: Did the Right Person Receive the Right Countermeasure?**

This webinar will demonstrate how to assess data quality during and after a mass dispensing or vaccine administration event. This presentation will include procedures for real time report export, how to identify and correct potential data entry errors and assessment of Just-In-Time user training needs. Key points to be addressed include Countermeasure Data Management System (CDMS) procedures for development of medical screening questions and Smart Form algorithms and Ad Hoc Visit Report and Report Management export interpretations.

[ClinOps-201701](#) **Considerations for Operating a Medical Point of Dispensing: Layout, Licensure and Staffing**

The January 2017 Medical Countermeasure (MCM) Clinical Operations Webinar will include an overview of select Federal and State requirements for mass dispensing, where Emergency Use Authorizations and Emergency Use Packages are not applicable. This will include a presentation and discussion on how federal and state regulatory provisions and licensing laws need to be considered during the design and operation of a medical POD. Key points to be addressed include general dispensing considerations, labeling requirements, data collection and the scope of practice for licensed professionals within the POD.

[ClinOps-201610](#) **Not Anthrax? Select Legal Considerations for Mass Dispensing Without Emergency Use Instructions**

The October 2016 Medical Countermeasure (MCM) Clinical Operations Webinar included an overview of select Federal and State requirements for mass dispensing, where Emergency Use Authorizations and Emergency Use Packages are not applicable. This included a discussion of select federal and state statutory and regulatory provisions that should be considered during a mass dispensing campaign. Key points addressed included general dispensing considerations, labeling requirements, as well as instruction for use.

[ClinOps-201609](#) **Medical Countermeasure (MCM) Operational Readiness Review (ORR): L-6 Deliverable Overview**

The September 2016 Medical Countermeasure (MCM) Clinical Operations Webinar included a review of the Operational Readiness Review Tool for Capabilities 8 and 9. Local jurisdictions were provided guidance on how to prepare for and participate in this review as part of the second quarter L-6 Deliverable (**For CRI jurisdictions – this deliverable is replaced by CRI 2**). This webinar also included the documentation submission requirements for both Capability sections. Other general updates/announcements were included at the conclusion of the webinar as time permitted.

[ClinOps-201606](#) **Legal Issues for Mass Dispensing and Newly Issued Emergency Use Instructions and Emergency Dispensing Orders**

The June 2016 Medical Countermeasures Clinical Operations Webinar, presented by a NYSDOH attorney, reviewed legal issues associated with medical countermeasure mass dispensing operations. The presentation addressed key legal authorities within the "Pandemic and All-Hazards Reauthorization Act of 2013 (PAHPRA)" and clarify the FDA's authority to support preparedness efforts and rapid response capabilities. Legal issues related to federal and state declarations, licensure requirements, and newly released emergency use packages (e.g., emergency dispensing orders, current good manufacturing practice waivers, and emergency use instructions) for doxycycline and ciprofloxacin were highlighted. Health Commerce System posting of newly released fact sheets and crushing instructions coincided with the webinar.

Office of Health Emergency Preparedness On-line Training

OHEP-DMHRec-2016 DMH Response to Mass Shooting Incident - Recorded Session

The training focuses on disaster mental health interventions and addresses the characteristics that may shape the immediate response to mass shootings – for example, how necessary law enforcement actions may affect survivors’ experiences during the event and how the common politicization of these events may increase subsequent distress.

OHEP-DMH06-Rec DMH: Assisting Children Recorded Session

The training focuses on specific disaster mental health skills necessary to assist children in the aftermath of an emergency.

OHEP-DMH-05 DMH: Maintaining Responder Resilience Recorded Session

The purpose of this training is to address occupational hazards with the goal of maintaining a responder’s functioning throughout future responses.

OHEP-ESSS-2014 Electronic Syndromic Surveillance System Recorded Session

This recorded training is an introductory level course to the New York State Electronic Syndromic Surveillance System (ESSS). The format of this training is a step-by-step system walk-through which focuses on the utilization of the system applications and interpretation of the system tables and graphs.

OHEP-DMHRec-2017 Mental Health Consequences of Infectious Disease Outbreaks Recorded Session

This training explores mental health consequences of infectious disease outbreaks and why understanding and addressing the anxiety tied to infectious disease is essential to improving compliance with public health measures like quarantine recommendations and PODs, maintaining workforce resilience among healthcare workers, and reducing traumatic reactions for all involved. The training identifies the diverse groups who are likely to be impacted during and after an infectious disease outbreak and provide guidance on how to address these complex needs.

CDC-PS2014 Packaging and Shipping Division 6.2 Materials Online Course

This on-line course uses a problem-solving approach to provide training on infectious materials (Division 6.2 Materials) as specified in the Department of Transportation (DOT) regulations. The content includes some general security training as well as some guidance on facility specific training.

PFA100.a Psychological First Aid

This on-line training will describe what PFA is, identify the core components of PFA and how PFA meets the basic needs of individuals who have survived or responded to a disaster.

OHEP Warehouse JITT Warehouse Safety JITT for SNS Operations

This on-line study course allows individuals to self-review the Just-in-Time (JIT) training materials relating to the deployment of Strategic National Stockpile (SNS)

COCA Update

Clinician Outreach and Communication Activity (COCA)
CDC Emergency Communication System

Recent CDC COCA (Clinician Outreach and Communication Activity) Calls

Zika Update: Findings from the U.S. Zika Pregnancy Registry and Updated Clinical Guidance

Date: Thursday, May 4, 2017

CDC recently released its latest findings from the U.S. Zika Pregnancy Registry (USZPR) on Zika virus infection in pregnant women and infants, which highlight the importance of prevention and early care. Additionally, CDC has released additional considerations for evaluating and managing infants with possible congenital Zika virus infection. Zika virus infection during pregnancy is a cause of microcephaly and other serious brain defects; however, the full range of potential health problems that Zika virus infection during pregnancy may cause is not yet known. Healthcare providers need information to appropriately evaluate and manage patients with possible Zika virus infection. During this COCA Call, clinicians will learn about the latest findings from the USZPR and updated CDC clinical guidance to assist in caring for these patients based on currently available data.

Clinical Action

CDC Clinician Outreach
and Communication Activity

2016–2017 Influenza Season Activity and Recommendations for Clinicians

Date: Thursday, February 16, 2017

Influenza activity in the United States began to increase in early December, remained elevated through mid-January, and is expected to continue for several more weeks. Influenza A(H3N2) viruses have been most common this season, and influenza A(H3N2)-predominant seasons are often associated with more severe illness, particularly among young children and people 65 years and older.

Annual influenza vaccination is recommended for all persons aged 6 months and older, and is the best way to prevent influenza. Available evidence consistently indicates that antiviral treatment, when initiated as early as possible, can be a useful second line of defense to treat influenza illness when indicated and can reduce severe outcomes of influenza. During this COCA Call, clinicians will learn about 2016–2017 influenza activity to date, and hear an overview of CDC's recommendations for healthcare providers including influenza vaccination and the use of antiviral medications for the treatment of influenza.

https://emergency.cdc.gov/coca/calls/2017/callinfo_021617.asp

Gearing up for the Travel Season: How Clinicians Can Ensure Their Patients are Packed with Knowledge on Zika Prevention

Date: Thursday, December 8, 2016

During this COCA Call, clinicians will learn about current CDC travel recommendations, how to determine which patients should receive Zika testing after traveling to an area with Zika, and the recommendations for patients before and after travel to help them protect themselves and others from Zika.

https://emergency.cdc.gov/coca/calls/2016/callinfo_120816.asp

Archived COCA conference calls are available at <https://emergency.cdc.gov/coca/calls/index.asp>

Free continuing education (CME, CNE, ACPE, CEU, CECH, and AAVSB/RACE) are available for most calls. For more information about free CE, visit <https://emergency.cdc.gov/coca/continuingeducation.asp>

CDC-MYTHS

Communicating in Radiation Emergencies: Myths of Radiation

Provider: Centers for Disease Control
Average Completion Time: 1 hr
LMS Course Completion Requirement:
 "Message" Certificate to Course Administrator
Continuing Education: 0.1 CEUs
Enroll in LMS Course #: [CDC-MYTHS](#)

Communicating in Radiation Emergencies: Myths of Radiation introduces participants to some common myths of radiation and identifies communications strategies to combat these and other myths. The training uses Person-On-The-Street interviews to identify the myths and features a discussion between risk communication and radiation subject matter experts to set the record straight.
OBJECTIVES: At the conclusion of the session, the participant will be able to:

- Describe seven common misconceptions associated with radiation.
- Debunk seven misconceptions using science-based explanations.
- Discuss one strategy to communicate accurate information during a radiation emergency for each misconception presented.

CDC-PS2014

Packaging and Shipping Division 6.2 Materials Online Course

LMS Course Completion Requirement:
 "Message" TRAIN Certificate to Course Administrator
Continuing Education: 2 CEUs
Course ID 1017204
Enroll in LMS Course #: [CDC-PS2014](#)

Who Should Attend:

This course is intended for those learners seeking recertification in packing and shipping of infectious substances (Division 6.2 materials). This course does not apply to individuals seeking initial certification.

Packaging and shipping Division 6.2 materials, such as patient specimens containing infectious materials and cultures, are regulated by U.S. and international transport agencies. Fines and penalties can be imposed against those who fail to comply with the applicable rules including proper classification and documentation of training, proper packaging, marking and labeling and proper shipping documentation. Updated for 2014, this intermediate-level online course, designed for individual study, is suitable for those seeking re-certification. Participants are provided with information useful for complying with regulations through use of instructional content and the opportunity to apply knowledge using realistic scenarios. This course should take approximately 2 hours to complete. It is divided into the following four modules:

- Module One: Hazardous Materials Regulations Overview
- Module Two: Classification
- Module Three: Packaging
- Module Four: Documentation

Objectives:

At the conclusion of this program, the participants will be able to:

- Classify specimens as an exempt human or animal specimen or either category A or category B infectious substance.
- Identify basic packaging concepts and processes for exempt human and animal specimens, category A and category B infectious substances and dry ice.
- List the documents required to accompany packages containing category A and category B infectious substances.
- Describe the documentation process for category A and category B infectious substances including specific differences dependent upon mode of transportation.

SNS-100

Strategic National Stockpile: Guidance & Overview

LMS Course Completion Requirement:
"Message" TRAIN Certificate to Course Administrator

Continuing Education: 0

Course ID 1017204

Enroll in LMS Course #: [SNS-100](#)

This video archive program provides an introduction and overview of the Strategic National Stockpile (SNS). It is designed to provide information about the SNS program to organizations and personnel involved in emergency preparedness and response planning.

SNS-101

SNS Overview

LMS Course Completion Requirement:
"Message" TRAIN Certificate to Course Administrator

Continuing Education: 1 CHES; 1 CME; 0.1 Pharmacist Contact Hours; 1 ANCC: Contact Hours Continuing Nursing Education; 1 MCHES

TRAIN CE Course #: WB 2273

Course ID 1041004

Enroll in LMS Course #: [SNS-101](#)

The course is designed to provide basic background information and definitions of federal agencies, stakeholders and other partners that will help understand all SNS operations during a public health event. The SNS Overview Course will fill the professional practice gap by providing the states and local agencies with information to manage SNS assets that may be deployed to sites during a public health emergency. The participants will learn the levels of support provided by the SNS, and the response concepts, the planning functions needed for consideration and operational requirements for receiving, distributing and dispensing of SNS material.

SNS-102

Mass Dispensing Overview: an SNS Perspective

LMS Course Completion Requirement:
"Message" TRAIN Certificate to Course Administrator

Continuing Education: 1 CHES; 1.25 CME; 1.08 ACPE- Contact Hours; 1.2 ANCC: Contact Hours Continuing Nursing Education; 1 MCHES

TRAIN CE Course #: WB 2509

Course ID 1054681

Enroll in LMS Course #: [SNS-102](#)

This course will introduce you to the terminology and concepts of mass dispensing at the community level. "Mass dispensing" refers to the delivery of medications or vaccines to the public to address a public health threat; other terms used to describe this activity include "MCM dispensing" and "mass prophylaxis". Public health threats could include a bioterrorism event such as a release of anthrax into a community or a naturally occurring event such as a novel disease outbreak. This course provides a brief introduction to the steps that occur before medical countermeasures arrive in local jurisdictions and describes basic dispensing methods.

SNS-103

Closed Point of Dispensing Considerations: an SNS Perspective

LMS Course Completion Requirement:
"Message" TRAIN Certificate to Course Administrator

Continuing Education: 1.5 CME; .14 ACPE- Contact Hours; 1.4 ANCC: Contact Hours Continuing Nursing Education; 1.5 MCHES

TRAIN CE Course #: WB 2509

Course ID 1054681

Enroll in LMS Course #: [SNS-103](#)

The Closed POD Planning course provides state and local agencies with information to manage Closed POD sites during a public health emergency. It covers planning functions for designing a system to quickly dispense prophylactic medications to the employees and their families. The course introduces common terminology and concepts of mass dispensing at the community level. Some locations may use other terminology.

CDC-CERC-01

Crisis and Emergency Risk Communication (CERC)

Provider: Centers for Disease Control & Prevention

Course Updated: 6/25/2014

Average Completion Time: 2hrs

Audience: Federal, state, and local public health professionals; healthcare professionals; emergency medical services professionals; preparedness partners; and civic and community leaders.

Continuing Education: 0.2 CEUs

Enroll in LMS Course #: [CDC-CERC-01](#)

At the conclusion of the training, the participant will be able to do the following:

- Explain Crisis and Emergency Risk Communication (CERC) principles.
- Describe the psychology of a crisis and the type of messages each audience needs.
- Explain how to tailor messages.
- Define core concepts of crisis communication planning.
- Explain the roles of the media and spokesperson.
- Describe the benefits of social media and mobile media devices.

CDC-CERC-02

Crisis and Emergency Risk Communication (CERC): Pandemic Influenza

Provider: Centers for Disease Control & Prevention

Course Updated: 6/25/2014

Average Completion Time: 1/2 hr

Audience: Federal, state, and local public health professionals; healthcare professionals; emergency medical services professionals; preparedness partners; and civic and community leaders.

Continuing Education: None

Enroll in LMS Course #: [CDC-CERC-02](#)

After completing the training, the participant will be able to do the following:

- Describe the psychology of a severe pandemic.
- Describe how to meet the public's needs through effective messages.
- Explain why stigmatization occurs.
- Explain strategies officials can use to respond to stigmatization.
- Recognize the importance of strengthening community hardiness and personal resilience to provide the optimum opportunity for recovery from the crisis.
- Analyze the ways that information technology and new media influence communication decisions and pandemic preparedness.

CDC-RAD

Radiation Basics Made Simple

Provider: Centers for Disease Control

Average Completion Time: 1.5 hrs

LMS Course Completion Requirement:

"Message" Certificate to Course Administrator

Continuing Education: 0.1 CEUs, 1.4 CNEs, 1.5 CMEs

Enroll in LMS Course #: [CDC-RAD](#)

The Centers for Disease Control and Prevention, Radiation Studies Branch announces the launch of *Radiation Basics Made Simple*, the first in a series of radiation preparedness training modules. *Radiation Basics Made Simple* introduces participants to the fundamentals of radiation and radioactivity.

CDC-PSYCH

Psychological First Aid in Radiation Disasters

Provider: Centers for Disease Control

Average Completion Time: 1.25 hrs

LMS Course Completion Requirement:

"Message" Certificate to Course Administrator

Continuing Education: 0.1 CEUs, 1.2 CNEs, 1.25 CMEs

Enroll in LMS Course #: [CDC-PSYCH](#)

Psychological First Aid in Radiation Disasters is a self-study training that uses interviews conducted with experts involved in the Goiania and Three Mile Island incidents, and video scenarios that allow participants to observe how psychological first aid techniques can be employed in a variety of response settings.

RSS-101

Receiving, Staging, and Storing (RSS) Training Video

LMS Course Completion Requirement:
"Message" TRAIN Certificate to Course Administrator

Continuing Education: 0

Course ID 1017208

Enroll in LMS Course #: [RSS-101](#)

This 14 minute videoarchive provides an overview of receiving, staging, and storing (RSS) Strategic National Stockpile (SNS) assets in the event of a public health crisis. It is designed to provide information to organizations and personnel involved in Strategic National Stockpile RSS functions.

PCEPN-EM101

Emergency Management for Primary Care Centers

Primary Care Emergency Preparedness Network (PCEPN) is co-led by the Community Health Care Association of New York State (CHCANYS) and the Primary Care Development Corporation (PCDC) and was created in close partnership with and support from the NYC Department of Health and Mental Hygiene Office of Emergency Preparedness and Response. PCEPN helps coordinate planning, training, and response services for the New York City primary care community so they can prepare for and respond to community and citywide needs in the event of a disaster or emergency on a local and regional level.

Provider: CHCANYS

Enroll in LMS#: [PCEPN-EM101](#)

Please contact the PCEPN team at info@pcepn.org with any questions or concerns.

This 30 minute pre-recorded course will provide an overview of the four phases of emergency management, the key elements of an emergency management program and plan, staff roles, and the role of the primary care center in emergencies and disasters. This course is recommended for primary care staff of all levels. To receive a certificate of completion for this course please take the pre-test and the post-test.
For optimum performance please use Google Chrome to view

FEMA IS-10.a

Animals in Disasters: Awareness and Preparedness

Provider: FEMA Independent Study
Course Updated: 10/2/2015
On-line Course: Yes
Average Completion Time: 4 hrs
LMS Course Completion Requirement:
 "Message" FEMA Certificate to Course Administrator
Continuing Education: 0.4 CEUs
Enroll in LMS Course #: [FEMA IS-10.a](#)

- This course is intended to help animal owners, care providers, and industries to understand incident management.
- The objectives of this course are to increase awareness and preparedness among animal owners and care providers, and to describe how typical hazards affect animals and what can be done by responsible owners to reduce the impact of disasters.
- Primary Audience: Animal owners and care providers.

FEMA IS-11.a

Animals in Disasters: Community Planning

Provider: FEMA Independent Study
Course Updated: 10/2/2015
On-line Course: Yes
Average Completion Time: 4 hrs
LMS Course Completion Requirement:
 "Message" FEMA Certificate to Course Administrator
Continuing Education: 0.4 CEUs
Enroll in LMS Course #: [FEMA IS-11.a](#)

- The objectives of this course are to learn how to develop a community plan for managing animals in an emergency, identify hazards and threats most likely to affect your community and ways to minimize their impact on animals, indicate how communities use the Incident Command System (ICS) to respond effectively to an incident involving animals, describe resources available to help communities recover from a disaster, and develop community support for a disaster preparedness plan involving animals.
- Primary Audience: Emergency management officials and animal owners, care providers, and industries.

FEMA IS-324.a

Community Hurricane Preparedness

Provider: FEMA Independent Study
Course Updated: 10/31/2013
On-line Course: Yes
Average Completion Time: 10 hrs
LMS Course Completion Requirement:
 "Message" FEMA Certificate to Course Administrator
Continuing Education: 1 CEUs
Enroll in LMS Course #: [FEMA IS-324.a](#)

Note: This course is on a **non-federal government website** operated by the **Cooperative Program for Operational Meteorology, Education, and Training (COMET)**.

This computer-based course, Community Hurricane Preparedness, is to provide those involved in the decision making process for hurricanes with basic information about:

- How hurricanes form
- The hazards they pose
- How the National Weather Service (NWS) forecasts future hurricane behavior
- What tools and guiding principles can help emergency managers prepare their communities
- **Course Objectives:**
- Identify the characteristic features of a hurricane
- List ways in which meteorologists monitor hurricane development
- Describe hazards from hurricanes
- Discuss the basic hurricane forecasting process and its limitations
- Identify the correct forecast product to use at various stages in an event
- Analyze various source of information about a hurricane and formulate a plan for dealing with the potential disaster

FEMA IS-100.B

Introduction to Incident Command System

Provider: FEMA Independent Study
Course Updated: 10/31/2013
On-line Course: Yes
Average Completion Time: 3hrs
LMS Course Completion Requirement:
 "Message" FEMA Certificate to Course Administrator
Continuing Education: 0.3 CEUs
Enroll in LMS Course #: [FEMA IS-100.B](#)

ICS 100, Introduction to the Incident Command System, introduces the Incident Command System (ICS) and provides the foundation for higher level ICS training. This course describes the history, features and principles, and organizational structure of the Incident Command System. It also explains the relationship between ICS and the National Incident Management System (NIMS).

FEMA IS-200.B

ICS for Single resources and Initial Action Incidents

Provider: FEMA Independent Study
Course Updated: 10/31/2013
On-line Course: Yes
Average Completion Time: 3 hrs
LMS Course Completion Requirement:
 "Message" FEMA Certificate to Course Administrator
Continuing Education: 0.3 CEUs
Enroll in LMS Course #: [FEMA IS-200.B](#)

ICS 200 is designed to enable personnel to operate efficiently during an incident or event within the Incident Command System (ICS). ICS-200 provides training on and resources for personnel who are likely to assume a supervisory position within the ICS.

FEMA IS-700.A

National Incident Management System (NIMS) An Introduction

Provider: FEMA Independent Study
Course Updated: 10/31/2013
On-line Course: Yes
Average Completion Time: 3 hrs
LMS Course Completion Requirement:
 "Message" FEMA Certificate to Course Administrator
Continuing Education: 0.3 CEUs
Enroll in LMS Course #: [FEMA IS-700.A](#)

This course introduces and overviews the National Incident Management System (NIMS). NIMS provides a consistent nationwide template to enable all government, private-sector, and nongovernmental organizations to work together during domestic incidents.

FEMA IS-800.B

National Response Framework, An Introduction

Provider: FEMA Independent Study
Course Updated: 1/20/2017
On-line Course: Yes
Average Completion Time: 3 hrs
LMS Course Completion Requirement:
 "Message" FEMA Certificate to Course Administrator
Continuing Education: 0.3 CEUs
Enroll in LMS Course #: [FEMA IS-800.B](#)

The course introduces participants to the concepts and principles of the National Response Framework.

Course Objectives:

At the end of this course, you will be able to describe:

- The purpose of the National Response Framework.
- The response doctrine established by the National Response Framework.
- The roles and responsibilities of entities as specified in the National Response Framework.
- The actions that support national response.
- The response organizations used for multiagency coordination.
- How planning relates to national preparedness.

Prerequisite: Climate Change and Public Health 101 - Northeast Edition

20 minute online course! This course focuses on the public health impacts from climate change that are of most concern to the Northeast and what local health departments can do to mitigate and prevent them.

Enroll in LMS: [BRACE-Climate101](#)

Webinar 1 - NYS Department of Health: Climate & Health Profile (Originally Aired March 30, 2016)

Presenter: Asante Shipp Hilts

The webinar will describe the changing NYS climate, climate-related health impacts, vulnerable populations, methods for assessing vulnerability, challenges and opportunities, existing NYS initiatives and collaborations, and implementation of the NYSDOH Climate and Health Strategic Map.

Enroll in LMS: [Reg2PHTC-Climate1](#)

Webinar 2 - Climate & Health Research in NYS / Hazard Vulnerability Analysis Process in IL (Originally Aired April 13, 2016)

Presenters: Dr. Shao Lin, University at Albany, School of Public Health; Elena Grossman, University of Illinois at Chicago, BRACE-Illinois Project

The first part of the webinar describes the results of multiple projects assessing whether extreme heat and cold affect multiple health outcomes and their vulnerabilities. Dr. Lin will also discuss how Hurricane Sandy affected human health in NY. The strategies and activities involved in translating research findings to public health practice are highlighted.

The second part of the webinar focuses on guidelines developed by the Building Resilience Against Climate Effects (BRACE) Illinois Project. The webinar describes how local health departments can use these guidelines to incorporate climate change into their Hazard Vulnerability Analysis (HVA) process and assess these new risks and vulnerabilities to the public health system so they can address the possibility that extreme weather events will become more frequent and severe.

Enroll in LMS: [Reg2PHTC-Climate2](#)

Webinar 3 - Ahmedabad Heat Action Plan – Improving city resilience against extreme heatwave (Originally Aired April 19, 2016)

Presenter: Dr. Partha Sarthi Ganguly, Indian Institute of Public Health, Gandhinagar, Climate Health Initiatives

The session will describe how the first Heat Action Plan of South East Asia got into action, its impacts, and policy implications based on the evidence generated. It will also describe the scaling up of this initiative and the cascading effect of huge networking and focus on climate change and health in India and neighboring countries.

**UASPH-CPHP-2016 Climate Change and Zoonosis Overview**

1 hour online Course by Millicent Eidson, MA, DVM, DACVPM (Epid.) Professor , UAlbany School of Public Health

Enroll in LMS#: [UASPH-CPHP-2016 Climate Change and Zoonosis Overview](#)

This lesson provides an overview of zoonotic diseases, climate change, potential impacts of Climate Change on human and non-human animal health, vulnerable populations, One health Approach and Mitigation efforts.

After completing this course, the learner will be able to:

- Identify the causes of climate change
- Describe the potential impact of climate change on zoonotic disease
- Describe mitigation efforts

UASPH-CPHP-20150521 CDR HEPC Pediatric Trauma

1 hour online video training, CEUs available

Enroll in LMS#: [UASPH-CPHP-20150521 CDR HEPC Pediatric Trauma](#)

This training will provide a broad overview of potential care needs for the pediatric patient involved in a disaster. This 1 hour training is part of a full-day training coordinated by the Capital District Regional Health Emergency Preparedness Coalition.

After completing this training, the learner will be able to:

- Identify the primary challenges related to trauma care of the pediatric patient
- Identify the surgical interventions critical to the care of pediatric trauma patients

Topics covered include: *Epidemiology of Pediatric Trauma * Pediatric Injury Patterns * Imaging in Pediatric Trauma

* Pediatric ABCDE's and Pitfalls (clinical decision rules) * Pediatric Pain * Triage of Pediatric Trauma in NYS

UACPHP-20150520 CDR HEPC Pediatric Disaster Mental Health

1 hour online video training, CEUs available

Enroll in LMS#: [UASPH-CPHP-20150520 Pediatric Disaster Mental Health](#)

This training will provide a brief overview of potential mental health care needs for the pediatric patient involved in a disaster. This 1 hour training is part of a full-day training coordinated by the Capital District Regional Health Emergency Preparedness Coalition.

After completing this training, the learner will be able to:

- Understand the responses to traumatic events that are typically seen in children and teens
- Know how to select and/or deliver psychological interventions that are empirically proven to be helpful with children and teens after a disaster

Topics covered include: 1. Typical emotional and behavioral responses of children to highly stressful events by developmental age.:

2. Psychological First Aid ; 3. Information-gathering techniques ; 4. Assessment of survivors' immediate needs;
5. Implementation of supportive activities.

These courses are supported by Cooperative Agreement Number 5 U90 TP000404-05, funded by the Centers for Disease Control and Prevention. Its contents are solely the responsibility of the authors and do not necessarily represent the official views of the Centers for Disease Control and Prevention or the Department of Health and Human Services

UASPH-CPHP-20150521 CDR HEPC Pediatric Trauma
1 hour online video training, CEUs available

Enroll in LMS#: [UASPH-CPHP-20150521 CDR HEPC Pediatric Trauma](#)

This training will provide a broad overview of potential care needs for the pediatric patient involved in a disaster. This 1 hour training is part of a full-day training coordinated by the Capital District Regional Health Emergency Preparedness Coalition.

After completing this training, the learner will be able to:

- Identify the primary challenges related to trauma care of the pediatric patient
- Identify the surgical interventions critical to the care of pediatric trauma patients

Topics covered include: *Epidemiology of Pediatric Trauma * Pediatric Injury Patterns * Imaging in Pediatric Trauma

UASPH-CPHP-20150522 CDR HEPC Respiratory Problems in the Pediatric Patient
1 hour online video training, CEUs available

Enroll in LMS#: [UASPH-CPHP-20150522 CDR HEPC Respiratory Problems in the Pediatric Patient](#)

This training will provide a broad overview of potential respiratory care needs for the pediatric patient involved in an emergency/disaster situation. This was part of a 1 day training sponsored by the Capital District Regional Health Emergency Preparedness Coalition.

At the conclusion of the presentation, the participants will be able to:

- Identify clinical challenges in critical care of the pediatric respiratory patient
- Describe emerging clinical modalities for the care of pediatric critical care patients

Topics covered include: Epidemiology • Signs of respiratory distress in children (stridor, asthma, wheezing, ALTE, etc.) • Acute management strategies • Advances in respiratory care (high frequency percussive ventilation and other trials.) • Challenges (including resources)

UASPH-CPHP-20150523 CDR HEPC Pediatric Infectious Disease
1 hour online video training, CEUs available

Enroll in LMS#: [UASPH-CPHP-20150523 CDR HEPC Pediatric Infectious Disease](#)

This training will provide a broad overview of potential care needs for the pediatric patient involved in an emergency/disaster situation. This training is part of a 1 day training sponsored by the Capital District Regional Health Emergency Preparedness Coalition.

At the conclusion of the presentation, the participants will be able to:

- Identify clinically emergent infectious diseases through visual diagnosis
- Describe the clinical course of emergent infectious diseases
- Review evidenced-based recommendations in the management of emergent infectious diseases

Topics covered include: • Epidemiology and pathogens of emerging infectious diseases • Symptomatology • Diagnosis • Treatment and management strategies

UASPH-CPHP-20150524 CDR HEPC Pediatric Triage
1 hour online video training, CEUs available

Enroll in LMS#: [UASPH-CPHP-20150524 CDR HEPC Pediatric Triage](#)

This training will provide a broad overview of potential care needs for the pediatric patient involved in an emergency/disaster situation. This was part of a 1 day training sponsored by the Capital District Regional Health Emergency Preparedness Coalition.

At the conclusion of the presentation, the participants will be able to:

- Recognize the need to prepare for Pediatric disasters
- Identify the basic steps involved in pediatric disaster triage
- Describe the fundamental difference between adult and pediatric disaster triage

Topics covered include: • Pediatric Disaster Preparedness in Emergency Departments • Unique anatomical and physiological properties in pediatric patients in disasters • Principles of Pediatric Triage • Triage tools & algorithms (START vs. SALT) • PEARLS/Pitfalls of Pediatric triage

Biosurveillance Toolkit:

The Biosurveillance Toolkit was created by the North Carolina Preparedness and Emergency Response Research Center (NCPERRC) at the North Carolina Institute for Public Health (NCIPH) with support from the Centers for Disease Control and Prevention (CDC). The Toolkit provides resources relevant to your work in improving biosurveillance.

The toolkit consists of Research, Online Training, Webinar Highlights and Resources.
