

# We're on a mission to better understand children's health and well-being.

We are looking for families with children **9 – 11 years old** to join our study. The information we gather will play an important role in helping us understand and better treat children at risk of suicidal thoughts or behaviors. You or your child do not have to have a history of these behaviors to help.

Parents and their children will be paid for their time.

- Parents receive up to \$50.
- Children receive a gift card of \$20.
- Eligible families receive up to \$350 for completing all 5 study visits.

We can provide transportation, mileage reimbursement, and child care reimbursement as needed. For more details or to join us, contact the Sheftall Lab at **(585) 694-7510** or **Sheftall\_Lab@URMC.Rochester.edu**.

**Lead Researcher Arielle Sheftall, Ph.D.**

Associate Professor, Department of Psychiatry and Director of Academic Affairs for the Diversity, Inclusion, Culture, and Equity (DICE) Board for the department.
