

On the go or at home

Philips Lifeline founded the medical alert industry more than 40 years ago. Over 7 million people have counted on Philips Lifeline to feel safe at home and on the go. Stay independent and connected with Philips Lifeline.

Why choose Philips Lifeline

- Philips Lifeline is the #1 medical alert service.
- We provide access to help for more seniors than any other medical alert service.
- We operate Response Centers in both the U.S. and Canada.
- More than 200,000 healthcare professionals nationwide recommend Philips Lifeline.

There's a Philips Lifeline solution for you

Philips Lifeline offers a range of choices to help you maintain your independence. Whether you need the go-anywhere protection of GoSafe, the automatic fall detection of Philips Lifeline with AutoAlert, or the peace of mind offered by HomeSafe, Philips Lifeline has you covered. Find out why more seniors choose Philips Lifeline over any other medical alert service provider. Call Your LOCAL Philips Lifeline Provider now: (585) 335-4359

Maintain your Lifestyle

With the Philips Lifeline medical alert service our goal is to help older adults live independently and with confidence. There's a Philips Lifeline service for you.

Look inside for solutions that fit your needs.

Solutions... for living INDEPENDENTLY

On the go

If you lead an active lifestyle, the GoSafe mobile medical alert service lets you take the security of AutoAlert with you wherever you go.

GoSafe 2*

- Designed to find you wherever and whenever you need help and connect you with a trained Response Associate
- Two-way voice communication allows you to speak to the Response Center when help is needed
- Advanced locating technologies including GPS and Wi-Fi to find you in an emergency
- Includes AutoAlert fall detection that automatically detects a fall and promptly calls for help even if you cannot.

**For homes with sufficient cellular service. May not be available in all areas.*

At home

The Philips Lifeline HomeSafe medical alert service helps you maintain your independence in and around your home.

HomeSafe

Push your waterproof personal alert button anytime you need help. It gives you fast access to a trained Response Associate.

HomeSafe can be worn as a pendant or a wristband.

HomeSafe with AutoAlert

Time matters in getting the help you need quickly if a fall is detected.

All of the advantages of HomeSafe, with the added feature of AutoAlert fall detection: automatically detects a fall and promptly calls for help even if you cannot.

AutoAlert fall detection is designed to distinguish between actual falls and everyday activities.

Cellular options are available for an additional cost.

It's as easy as 1,2,3!

1. Summon help

With a push of your waterproof personal alert button – tucked discreetly inside your clothes or worn outside – you're quickly connected to one of our North American response centers. And if you have AutoAlert fall detection and can't push your button, your pendant will automatically provide access to help if it detects a fall.

2. Hear a reassuring voice

One of our caring trained Response Associates will quickly access your profile and evaluate your situation.

3. Know help is on the way

Philips Lifeline will contact a neighbor, loved one, caregiver or emergency services – based on your preferences – so you're assured that help is on the way. They then follow up to make sure help has arrived.

The Phillips Lifeline Difference

- No long-term contract
- No service cancellation fee
- No landline phone needed
- You choose who responds to your call

Ask us about the Philips medication dispensing service

The Philips medication dispensing service is a simple way to manage even the most complex medication regimens.
