## New Courier Specimen Tracking System

UR Medicine Labs has implemented a new courier specimen tracking system, Medical Courier Elite or MCE.

Barcodes have been added to your specimen boxes and pick up locations. In addition, new barcoded specimen bags are currently being distributed. Please discard any previous stock of specimen bags. Going forward, when you order specimen bags, you will receive the new barcoded bags. The new bags contain a unique identifier to assist our couriers in tracking specimens through our lab system.

No additional action is required by your location.

MCE will allow for real time tracking of specimens and alert notifications when a specimen does not reach its intended destination.

For more detailed information, please go to:
