

University of Rochester School of Medicine & Dentistry Office of Continuing Professional Education

Sample 1 Outcomes-Based Evaluation Questions

| 1. | Today's activity improved my medical knowledge from |
|----|---|
| | to |
| 2. | Improvements in my practice that I intend to make based on information learned during today's activity: |
| A. | |
| | |
| | If improvements will not be made, please list the factors acting as barriers? |
| A. | |
| В. | |
| 4. | As a result of this presentation, I will change my behavior or practice from my current |
| | to |
| | |

- 5. Please describe the key points from today's presentation that you will use to "conduct studies with a more racial and ethnic diverse population"? (Customize question for each learning objective of each session.)
- 6. If learning objective is: Name two key points a patient and health care professional should know about Non-Hodgkin Lymphoma, add two lines for attendees to enter their answer.
- 7. Ask and record answers to the same question at the beginning and end of the session: There are four major different methods of classifying non-Hodgkin lymphomas according to histological appearance, generally seeking to identify the aggressive type vs. the non-aggressive ones. Which of the following should patients understand about staging?
 - a. Staging is a method of describing how much the disease has spread.
 - b. Physical examination, imaging studies, and bone marrow biopsy are tests used to stage, but the histology in a lymph node biopsy is not a component of staging.
 - c. Staging impacts treatment alternatives.
 - d. All of the above.

Sample 2 Outcomes-Based Evaluation Plan

| Hospital and Department | | |
|-------------------------|--|--|
| Activity Title | | |
| | | |

Very likely, you will require a table that is larger than the example below. The following is to give you impression of at least one possible format for organizing outcomesplanning information.

| outcome | indicator(s) | source of data | | who collects data | when collect data |
|---------|--------------|--------------------|-------------------|-------------------|-------------------|
| | | (records, clients, | data | | |
| | | etc.) | (questionnaires, | | |
| | | | interviews, etc.) | | |
| | | | | | |
| | | | | | |
| | | | | | |
| | | | | | |
| | | | | | |
| | | | | | |
| | | | | | |
| | | | | | |
| | | | | | |
| | | | | | |
| | | | | | |
| | | | | | |
| | | | | | |
| | | | | | |
| | | | | | |

Sample 3 Outcomes-Based Evaluation Self-Assessment

Instructions:

Pre-Activity: Please rate your desired and current level of proficiency (columns A and B) for each of the research-related tasks listed below:

Post-Activity: Please rate your current level of proficiency now that you have completed the activity (column C).

Use a 10-point scale where $10 = \frac{10}{2}$ expert/high degree of proficiency and $1 = \frac{10}{2}$ level of proficiency.

| | A | В | C |
|--|-------------|--------------|---------------|
| | Desired | Pre-Activity | Post-Activity |
| | Proficiency | Proficiency | Proficiency |
| | Level | Level | Level |
| 1. Research Question: | | | |
| a. Write a research question that is clearly and concisely written | | | |
| 2. Theoretical Constructs: | | | |
| a. Identify theoretical constructs that are relevant to the question | | | |
| 3. Literature Search: | | | |
| Search and identify the relevant literature that is pertinent to your question | | | |
| 4. Methodology: | | | |
| a. Match a methodology that fits with your research question | | | |
| b. Use quantitative research methods | | | |
| c. Use qualitative research methods | | | |
| d. Use an appropriate data collection method | | | |
| e. Analyze the data collected | | | |
| f. Identify appropriate local resources to complete the data analysis | | | |
| 5. Resources: | | | |
| a. Identify internal and external resources that you might have access to | | | |
| b. Identify potential collaborators for your project | | | |
| 6. Budget: | | | |
| a. Create a budget for your project | | | |
| 7. Ethics: | | | |
| a. Submit your project to a Research Ethics Board (REB) | | | |
| 8. Funding: | | | |
| a. Identify sources of funding locally and nationally | | | |
| 9. Timeline: | | | |
| a. Create a timeline for your research project | | | |
